

OKUMA IS FOCUSED ON CONSTANT INNOVATION TO CREATE FISHING PRODUCTS THAT INSPIRE ANGLERS.

With input from some of Australia's top anglers, the Okuma range has been refined to suit our unique and broad fishing spectrum. From bass to bluewater, there is an Okuma rod that will perform beyond the expectations of anglers, and instill the confidence to take their fishing to the next level. Okuma rods feature cutting edge technology, quality materials, stylish design and peace of mind with an Okuma Australia warranty of 1 year on rods.

OKUMA ROD RANGE

SPIN RODS	2

SABIKI RODS	13

HYBRID 8/2

Designed to offer exceptional bait fishing performance, the Hybrid 8/2 blank has a highly sensitive tip combined with excellent power in the lower blank to control hooked fish. Finished with premium SeaGuide components, this specialist rod will suit a wide range of estuary and bay bait fishing conditions and species.

Model	Action	Length	Sections	Line Rating	Casting Weight
HYB-S-822M	Medium	8'2"	2	3-6kg	10-30g

EPIXOR SQUID

Balanced for long casts and imparting action into your jigs, with crisp tips and plenty of power down low, Epixor rods are built on quality 40T Toray carbon blanks and feature Fuji K guides and Fuji reel seat. A dream rod for egi anglers.

Model	Action	Length	Sections	Line Rating	Casting Weight
EPI-S-762	Medium	7'6"	2	PE 0.6-1.2	Egi 2.5-4.0
EPI-S-832	Medium	8'3"	2	PE 0.6-1.2	Egi 2.5-4.0

INKED EGI SPECIAL

A classy squid rod, the Okuma Inked EGI Special is built on a balance between the softness in the tip to avoid pulling jigs, and the power in the lower section to make long casts, work the jig and control the surges of hooked squid. Finished with quality SeaGuide guides, comfortable fore grip and split rear grip.

Model	Action	Length	Sections	Line Rating	Jig Weight	Type
INK-822M	Medium	8'2"	2	PE 0.6-1.2	EGI 2.5-3.5	Squid

CERROS SPIN

Designed in Australia to suit Aussie species and techniques, the Cerros spin range offer anglers incredible value for money. Built on quality 30T Toray carbon blanks and finished with quality Seaguide Hero Hi-Grade guides with marine grade SS316 frames and Fuji reel seats, Cerros rods feature crisp actions, classic silver and black highlights and there's a comprehensive range of weights available that have you covered for everything from bream and bass, to snapper, barra and pelagic species.

Model	Action	Length	Sections	Line Rating	Casting Weight
CER-S-701L	Light	7'0"	1	1-3kg	1-8g
CER-S-701ML	Med Light	7'0"	1	2-4kg	1-15g

CER-S-701XH	X-Heavy	7'0"	1	8-15kg	20-50g

CERROS TRAVEL SPIN

All the same features of the Cerros Spin range, in a compact 3-piece layout. Comes with a robust hard travel tube, ready for adventurous anglers that want a capable, responsive spin rod that can travel with them anywhere they go.

Features include quality high modulus Toray graphite blanks and Seaguide guides, Fuji reel seats and classic silver and black highlights. Travel in style with the Okuma Cerros Travel Spin series.

Model	Action	Length	Sections	Line Rating	Casting Weight
CER-S-703ML	Med Light	7'0"	3	2-4kg	1-15g
CER-S-703H	Heavy	7'0"	3	5-12kg	15-40g

BARBARIAN PRO SPIN

FEATURING
UFR TECHNOLOGY

Using the proven Barbarian range as a starting point, the Barbarian Pro range adds a host of functional upgrades to create a range of high performance bait fishing rods. Additional features include the use of premium SeaGuide stainless steel guides with zirconia inserts, ergonomic cut-out reel seats, and shaped low profile hard EVA grips that increase feel and bite detection.

The proven blanks on the Barbarian Pro range have soft, forgiving actions, along with Okuma's UFR process that results in a highly sensitive tip, combined with plenty of low-end grunt to control surging fish.

Model	Action	Length	Sections	Line Rating	Type
BNP-S-702NT	Light	7'0"	2	2-4kg	Nibble Tip
BNP-S-902NT	Med Light	9'0"	2	2-6kg	Nibble Tip
BNP-S-1002NT	Med Light	10'0"	2	2-6kg	Nibble Tip
BNP-S-1062NT	Med Light	10'6"	2	2-6kg	Nibble Tip

HELIOS SX SPIN

The eye catching Helios SX range of rods offer anglers high end components, ultralight feel, crisp actions and incredible value for money. Features include 30T Toray carbon construction, creating slim blanks and fast actions, Japanese EVA split grip design and comfort grip ergonomic reel seat.

Model	Action	Length	Sections	Line Rating	Casting Weight
HSX-S-702L	Light	7'0"	2	1-3kg	1-8g
HSX-S-702ML	Med Light	7'0"	2	2-4kg	3-15g

JAW2-S-762M	7'6"	2	3-6kg	2.5-4.0g

BARBARIAN SPIN FEATURING UFR COOL TECHNOLOGY

Okuma Barbarian spin rods feature actions perfectly suited to bait fishing, and slick black aesthetics. Okuma's patented UFR technology in the tip section of the blank gives these rods the sensitivity and feel of a solid glass tip rod, with the benefit of reduced weight and increased strength, durability and lifting power in the tip, up to three times that of a standard rod blank.

Available in a range of lengths and actions to cover a wide range of bait fishing applications.

Model	Action	Length	Sections	Line Rating	Type
BN-S-702NT	X-Light	7'0"	2	2-4kg	Nibble Tip

BN-S-1162NT	Med/Light	11'6"	2	2-6kg	Nibble Tip

LUNARIS UFR SPIN FEATURING UFR COOL TECHNOLOGY

Okuma's Lunariss series feature glow tips that can be charged with a torch for night fishing, allowing anglers to see the bite. This series also features Okuma's UFR technology in the tip for increased sensitivity, with the benefit of reduced weight and increased strength, durability and lifting power in the tip, up to three times that of a standard rod blank. The 702NT and 802NT models will both be dynamite bait rods for anglers targeting whiting, bream, flathead, garfish and other light sportfishing favourites. Classic looks, beautiful actions and excellent value for money.

Model	Action	Length	Sections	Line Rating	Type

LUN-S-802NT	Light	8'0"	2	2-4kg	Nibble Tip

CORONADO SPIN FEATURING UFR COOL TECHNOLOGY

A highly versatile rod, the Coronado Spin incorporates Okuma's UFR blank process to offer excellent tip sensitivity, with plenty of low-down power to control hooked fish. Ideally suited to bait fishing in the estuaries and bays, it's action is soft enough for targeting smaller species such as bream, with enough backbone to handle larger species such as flathead, mulloway and salmon. A longer butt section secures the rod well in rod holders, and a longer fore grip provides plenty of leverage.

Model	Action	Length	Sections	Line Rating
CO-S-701SSL	Light	7'0"	1	5-7kg

WAVE POWER SPIN

Wave Power rods offer anglers wanting to get into lure fishing a stylish and quality entry level rod that is available in a popular selection of lengths and line ratings covering bream, bass and flathead, to mulloway and snapper. Features include graphite composite construction, Okuma reel seat, comfortable EVA grips, stainless steel guide frames with durable titanium oxide guides, split grip butt design for reduced weight and improved balance, and a two piece design for easy storage and transportation.

PRESSURE POINT POPPING & STICKBAIT

Designed and field tested by guides from Australia's premier sport fishing charter operations, these premium stickbait and popping rods have been created from the ground up using high end Toray carbon blanks and premium components so that you can cast long, work large lures effectively, and put the brakes on Australia's hardest pulling fish species with total confidence.

Features include a butt-joint design on 2 piece models for easy transport and storage, quality Fuji components including stainless steel Tangle Free K Guides, extended hard EVA grips and integrated rubber butt cap / gimbal. The Pressure Point range meets the demands of anglers looking to push the boundaries and target big, fast and powerful fish in Australia's tough saltwater conditions.

- » DESIGNED IN CONJUNCTION WITH LEADING SPORTSFISHING GUIDES FOR TARGETING AUSTRALIA'S TOUGHEST SPECIES
- » BUILT ON BRUTALLY STRONG, PREMIUM TORAY CARBON BLANKS
- » STAINLESS STEEL FUJI TANGLE FREE K GUIDES FOR DURABILITY AND CONSISTENCY IN HARSH CONDITIONS
- » FUJI HEAVY DUTY REEL SEAT, EXTENDED SHAPED HARD EVA GRIPS WITH INTEGRATED RUBBER BUTT CAP AND GIMBAL
- » MODELS AND LENGTHS COVERING A WIDE VARIETY OF LURE FISHING STYLES FOR LARGE, AGGRESSIVE FISH

METALOID SPIN/JIGGING

Built on extremely light weight and responsive 24T carbon blanks, Metaloid rods are designed to put the brakes on big fish, incorporating Okuma's special blank design and production process to improve hoop strength. Other quality components include ALPS deep press 316 stainless steel guide frames with Zirconium guide inserts to reduce friction from braided lines, Fuji reel seat and an integrated rubber butt / gimbal. This classy looking rod folds away beautifully when a fish is hooked, bringing the fight closer to your body and taking the leverage advantage away from the fish.

- » EXTREMELY LIGHT WEIGHT AND RESPONSIVE 24-TON CARBON ROD BLANKS
- » ROD BLANKS FEATURE OC-9 CARBON OUTER WRAP FOR IMPROVED HOOP STRENGTH
- » FUJI K-CONCEPT GUIDE FRAMES AND ALCONITE INSERTS FOR DURABILITY WITH HEAVY BRAIDED LINE
- » GUIDE WRAPPINGS WITH PURE CARBON THREAD FOR IMPROVED HOLDING POWER
- » TAPERED EVA REAR GRIPS FOR MAXIMUM COMFORT

DELTA SPIN FEATURING UFR TECHNOLOGY

Power and performance are at the heart of the Delta spin rod range. Built on 24T Toray carbon blanks for reduced weight, and increased sensitivity and durability, combined with Okuma's patented UFR technology in the tip section, increasing the rods lifting power and strength by up to three times that of a standard rod blank. Finished with quality components, integrated gimbal butt and crossed carbon design for a classy finish and increased strength.

Model	Action	Length	Sections	Line Rating

TXS-S-1303MH	Med Hvy	13'0"	3	20-30lb	3-6oz

SURF XT

The focus when developing the Surf XT range was to create the best quality, high end performance surf and rock blanks. These rods are extremely responsive, with serious power in the butt section thanks to intricately machine woven graphite strands. Built for long casts and big fish, with other quality features including stainless steel, tangle-free guide frames, split butt design and durable EVA grips.

CL-S-1303SFM	Medium	13'0"	3	15-30lb	Surf

KOMODO BAITCAST

The Komodo SS baitcast reel has a reputation for strength, reliability, stopping power and it also looks the goods. It makes sense then that the matching series of rods follow the same design principles, from their quality finish, 30T Toray carbon blank construction and Seaguide Hero Hi-Grade Low Frame Casting Guides, to the attention to detail in bind and metal component highlights and custom ergonomic Okuma reel seat for increased 'feel'.

Available in a selection of models that cover heavy bass fishing and extracting mangrove jack, to taking on monster impoundment barramundi and bucket mouth Murray cod, this series of rods will impress in terms of both finish and performance. For those throwing big swimbaits, there's even models for you, without the insane price tag commonly associated with swimbait rods. These models are 8' of pure casting and stopping power available in heavy and extra heavy options.

PCH CUSTOM BIG GAME

Okuma PCH Custom Game Rods are constructed using the latest carbon composite technology, combined with cutting edge components, including a carbon butt design that reduces weight by over 25% that of comparable game rods, without sacrificing strength and stopping power. This makes for a game rod that is lightweight and comfortable to fish, with an easy handling offshore action that retains the power and durability of E-glass rod blanks. The PCH steps things up in both design and performance elements, providing anglers with a classy looking and powerful rod that is capable of taking on all comers.

TERRABITE LBG

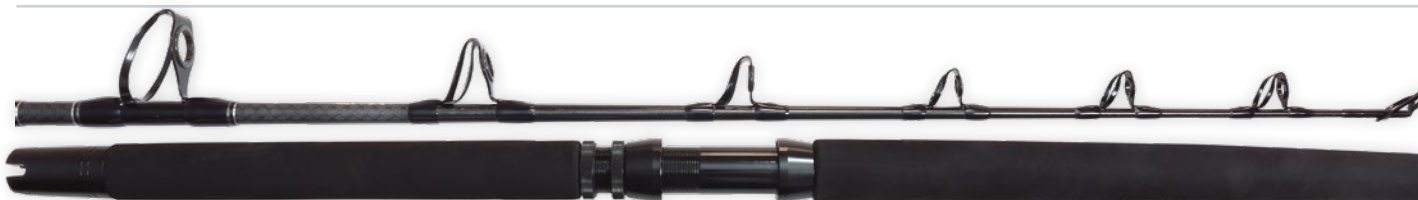

Created specifically for land based game anglers, the TerraBite LBG series adds extra length to a traditional overhead game rod for greater casting ability, and more reach in the closing stages of a land-based battle. Loaded with premium Alps heavy duty guides and tough SeaGuide reel seat, these rods utilise a high-strength, lightweight and powerful blank that's ideally suited to the rough and tumble of chasing large, aggressive game species from land-based locations. Extended shaped EVA grips provide extra purchase, and an integrated alloy gimbal locks into harnesses for added security.

Model	Action	Length	Sections	Line Rating
TB-792-OH 10-15kg	Land Based Game	7'9"	2	10-15kg
TB-792-OH 15-24kg	Land Based Game	7'9"	2	15-24kg

SOLTERRA SLX OVERHEAD

Okuma Solterra SLX boat rods feature e-glass blank construction for maximum durability, heavy duty guide frames with titanium oxide guide inserts, aluminium reel seat with additional locking nut, EVA grips with flat design on fore grip, and a machined aluminium gimbal. These rods look the goods and offer offshore anglers excellent value for money in a tough, no-nonsense trolling and bottom bouncing rod.

SABIKI UTG

The Okuma Sabiki UTG rod has been designed from the ground up to overcome the shortcomings of other sabiki/bait jig rods that have been pointed out to us by frustrated anglers. Increased length allows more brands of jigs to be wound completely inside the rod, while the slimmer blank increases action, for more lively movement of the bait jig. The Sabiki UTG is a two piece design for easy storage, with a butt join to avoid the snagging of swivels and hooks.

- » REDUCES TANGLES AND SIMPLIFIES SABIKI STORAGE
- » TWO PIECE DESIGN WITH BUTT JOIN
- » UTG-732BK-W: HEAVIER ACTION, WIDE MOUTH
- » QUALITY COMPONENTS AND EVA GRIPS

Model	Action	Length	Sections	Line Rating
UTG-732SBKA	Sabiki	7'3"	2	10-20lb
UTG-732SBK-W	Sabiki	7'3"	2	15-30lb
