

# RODS

---

Nothing inspires the soul like a finely-crafted fishing rod. Upon picking it up, flexing the action & feeling the balance, an angler can immediately visualize the experience- working a bait, feeling the strike, the deep flex under the load of a heavy fish. While the needs of each fishery can be dramatically different, the goal is universally the same: to actively connect with nature as a participant instead of a spectator. With many hundreds of unique rod models covering unique territories, species & techniques, our development process is highly collaborative. We work with the finest anglers in a given discipline to define the performance attributes. Then we bring them to life within our cutting-edge manufacturing facility.

## X-SERIES RODS

- Light and Responsive 46-Ton Toray carbon blank
- UXR: Ultimate X Reinforced Multi-Directional Fiber Technology
- Fuji KW-concept angled guide frames help reduce tangles
- Fuji Sic guide inserts with deep pressed frames
- Seaguide HSC™ Hyper Sensitive Carbon Reel Seat
- Tapered cork grip with contoured EVA rear grip design
- X-Series rods are backed by a Limited Lifetime Warranty

# TRAVEL

---

Nothing inspires the senses like getting out & traveling to a new destination & fishing new waters. The thrill of discovery fills us all. Whether you are hiking to a high mountain lake to chase beautiful golden trout, tying on a big swimbait to try to catch a giant striped bass, or dropping back a live sardine in hopes of breaking the triple digit mark on a yellowfin tuna, Okuma has your travel gear needs covered. Our travel gear is designed to not only help you get to your hidden destination, but to land that fish of a lifetime.

# COMBOS

---

A key component of our mission at Okuma Fishing Tackle is to maintain fishing as accessible to all interested people. Part of that effort includes our involvement in numerous conservation & fishing organizations. On the product side, it's our rod & reel combos that receive the focus. Our selection is backed by our commitment to make that first step into fishing an incredibly positive experience. We fill these products with color, excitement in addition to value & performance, because catching the eye is the first step in creating an angler.

# ROD TECHNOLOGY

Ultimate Flex Reinforcement

**UFR** 

## A TIP TO CATCH THEM ALL

Anglers will immediately identify the benefits of Okuma's Ultimate Flex Reinforcement (UFR) technology through light-weight and sensitive rod-tip construction. UFR technology incorporates three times the strength and lifting power over traditional rods, making it powerful enough to fight the toughest of fish, but sensitive enough to feel the lightest of bites.
