## RIISING WITH EVERY CHALLENGE

The average person might stumble upon a remote beach and find inspiration in the texture of the sand, curl of the waves and the salty spice of the air. For the community of anglers, however, playing witness to nature is far less satisfying than direct participation.

As we approach every piece of water, our attention inevitably falls to what lies beneath the surface: beneath the waves, off the point, on the edge of structure, at the intersection of currents. It's the fish and their habits, their power and speed that captivate our attention. Through rod and reel we find our connection. Some call it sport. We call it a way of life that's rich with experiences.

At Okuma Fishing Tackle, our goal is to enhance every encounter. Integrating the latest advancements in materials and construction techniques is a means to downplay the presence of the gear. Eliminate weight and increase feel. Enjoy a running fish instead of fearing it. Button down the drag and go toe-to-toe with complete confidence. Your focus is not on the equipment; it's on the fish.

Wherever your travels take you, from the local pond to distant reef, we're proud to be your partner in the discovery of what lies beneath.

**RODS**

# ROD TECHNOLOGY

## UFR TECHNOLOGY

When choosing a rod, anglers often face the trade-off between a powerful but bulky rod that can catch big-sized fish, or a sensitive but weaker rod that can sense the bites of the smallest fish. We address this challenge with a revolutionary tip: Ultimate Flex Reinforcement (UFR), which redefines the future generations of rods.

Developed using a patented manufacturing process, the UFR tip combines strength and agility like never before, marking a breakthrough. Our UFR technology endows our rods with a 300% increase in lifting capability and an ability to bend up to 360°. With a longitudinal fibers around the rod blanks, our rods are more powerful, yet lighter and more flexible than traditional ones. As a result, our anglers no longer need to choose between power and sensitivity.

**FREEING  
ANGLERS FROM  
THE CHOICE  
BETWEEN POWER  
AND SENSITIVITY**

## UMR TECHNOLOGY

Okuma's Ultimate Matrix Reinforcement (UMR) technology maximizes rod strength while minimizing weight, so you can rise to meet any challenge.

**LIGHTWEIGHT STRENGTH  
BUILT FOR ANY CHALLENGE**

## USR TECHNOLOGY

Okuma's USR technology, short for Ultra Strength Reinforcement, is an innovative carbon fiber wrapping technology for fishing rods. By utilizing a cross carbon wrap jacket, USR significantly enhances the performance of rod blanks. This advanced construction technique reinforces the structure of the blanks, resulting in increased strength and amplified power. With USR, fishing rods achieve a superior level of robustness and improved performance capabilities.

**ROBUSTNESS AND  
IMPROVED PERFORMANCE**

### GUIDE SELECT DROP SHOT SPINNING

The Guide Select Drop Shot series are developed to meet the needs of drop shot fishing technique. These rods are extremely sensitive with sensitive tips, which means you will be able to feel even the smallest strikes. In addition to drop shot, the rods can be used for casting other small tackle.

#### FEATURES

- 30t and 30+40t carbon
- Seaguide SS with Zirconia insert
- Fuji VSS reel seat for spinning
- Fuji TCSM reel seat for casting
- UFR Tip technology
- Premium EVA Grip

**SPINNING**

**GUIDE SELECT VERTICAL SPINNING**

The Guide Select Vertical Spinning rods are developed for vertical fishing. The rod blanks are shorter than average due to the fact that long casts are not in the center of this fishing style. In addition to this, shorter rod is easier to handle in the boat. Vertical Spinning has a sensitive tip yet enough power. This allows you to feel even the most sensitive strikes and hook the fish.

**FEATURES**

- 30t and 30+40t carbon
- Seaguide SS with Zirconia insert
- Fuji VSS reel seat for spinning
- Fuji TCSM reel seat for casting
- UFR Tip technology
- Premium EVA Grip

**CASTING**

## GUIDE SELECT VERTICAL CASTING

Guide Select Vertical Casting rods have been developed for vertical fishing. The most important thing when choosing a vertical rod is that it has a sensitive tip and enough power in the bottom section of the rod so that you can feel even the smallest of hits and get the fish hooked properly. These rods are short, which makes them easy to handle in the boat.

**FEATURES**

- 30t and 30+40t carbon
- Seaguide SS with Zirconia insert
- Fuji VSS reel seat for spinning
- Fuji TCSM reel seat for casting
- UFR Tip technology
- Premium EVA Grip

## COLD WATER IN-LINE

Designed for freshwater trolling, the Okuma Cold Water inline rod's moderate action and powerful and responsive 24-ton carbon blank are optimal for targeting agile and vigorous fish like salmon. The inline design of the Cold Water allows for a flexible structure with an even distribution of force when fighting the fish. The high-quality tip guide line material ensures the line endures stretch and stress without breaking.

## DISTANCE

A member of Okuma's new range of surf casting rods, the Distance rod allows you to reach the faraway spots where the big ones lurk. The telescopic spinning rod is easy to store and carry, making it an ideal choice for the mobile angler with a preference for convenience. The Distance rod features a premium Fuji reel seat, a hybrid tip to increase bite detection, and a high-modulus carbon wrap to increase the blank's strength and sensitivity. The floating heavy-duty line guides increase performance and allow the rod to telescope smoothly.

- High module carbon wrap
- Fuji reel seat
- Heavy duty sliding guides

## FLITE HYBRID

A member of Okuma's new surf casting range, the Flite Hybrid is designed for targeting all saltwater shore species with its extreme casting distance and uncompromised accuracy. Built with high-quality Toray carbon, the Flite Hybrid delivers fast and responsive action in a thin and strong blank. Together with premium components from Fuji, the Flite Hybrid's hybrid tip allows for extreme casting distance by converting more energy into casting power. Furthermore, the hybrid tip improves accuracy and enhances bite indication. The reflective tip's glow-in-the-dark technology makes sure that no bite goes undetected, even in the darkness of the night. The Flite Hybrid rod is matched perfectly with Okuma's Flite Surf reel.

### FEATURES

- Toray carbon
- Thin, strong, light and fast responsive blank
- Sensitive hybrid tip
- Fuji K Alconite and Fuji LR reel seat
- Anatomic rear grip
- Aluminum reinforced joint part

## ROCKAWAY HYBRID

A member of Okuma's new range of surf casting rods, the Rockaway Hybrid allows you to reach spots other anglers can't. Powered by a Toray carbon blank and premium Fuji line guides, the Rockaway Hybrid is designed for smooth, reliable, and impressively long casts. The sensitive hybrid tip glows and reflects, ensuring uncompromised bite detection even in the dark. The anatomic rear grip improves comfort while the aluminum-reinforced joint increases durability. Pair the Rockaway Hybrid with the Rockaway spinning reel for an affordable yet performance-packed tool for surf casting on the Mediterranean and Atlantic coasts.

### FEATURES

- Toray carbon
- Sensitive hybrid tip
- Glow & reflective tip
- Anatomic rear grip
- Fuji Low rider Concept "O" guides
- Aluminum reinforced joint part

## SURFLINER +

Cast with confidence. Designed as the top-class choice for surf anglers, the Surfliner+ is powered by premium components and smart technologies. The light and responsive Toray carbon blank is fitted with friction-minimizing Fuji SiC line guides for smooth and distance-covering casts. The rod's sensitive hybrid tip glows and reflects, ensuring uncompromised bite detection even in the dark. The anatomic rear grip improves comfort while the aluminum-reinforced joint increases durability without sacrificing sensitivity. Pair the Surfliner+ with the Flite Surf reel for unparalleled surf casting performance.

### FEATURES

- Toray carbon
- Thin, strong, light and fast responsive blank
- Sensitive hybrid tip
- Fuji SiC lowrider and Fuji reel seat
- Anatomic rear grip

## AVENGER PRO BOLENTINO

Designed for saltwater bottom fishing from the boat, the Avenger Pro Bolentino relies on a powerful and balanced high-modulus carbon blank and the sensitivity of the hybrid tip. All rods in the series come with a two different hybrid tips – you can adjust the action when needed by changing the tip. And when fighting the fish, the fighting butt cap allows you to brace the butt against your body for increased leverage. The Avenger Pro Bolentino series includes two 2-part rods and a telescopic version with an interchangeable hybrid tip. All finished with adrenaline-fueled cosmetics.

### FEATURES

- High module carbon
- Powerful and balanced blanks
- Supplied with 2 detachable Hybrid tips
- Fighter butt cap
- Telescopic version in 310cm rod

FEEDER

NEW

## 8K FEEDER GEN 2

Introducing the second generation of our highly acclaimed 8K Feeder rod series, where we've taken the best features of the previous generation and elevated them with unique upgrades. Crafted with precision, each rod in the 8K Feeder 2nd generation series boasts a high module carbon construction, ensuring exceptional strength and durability without compromising on responsiveness. The thin blanks enhance overall performance, allowing for enhanced sensitivity. We are proud to present the innovative 'Sniper' tip design incorporated into every rod in the range. These detachable tips offer unrivaled sensitivity for bite detection, allowing you to increase your catch rate. Prepare to elevate your feeder fishing to new heights.

High module carbon • Thin blanks • Fast response • Supplied with 3 Innovative detachable 'Sniper' tips • Sea-guide high quality components

FEEDER

NEW

## CUSTOM BLACK FEEDER

The next chapter of the Custom Black Feeder success story is here. Dedicated to delivering uncompromised and versatile performance for match and feeder anglers, the new Custom Black Feeder builds on the best-proven features of the series – and adds in a brand-new rod tip design. The series' thin high-modulus blanks pack enough power for long and accurate casts, but also deliver the fast and responsive action needed to land in species like carp, bream, and barbel. Finished with top-of-the-line cosmetics for that Custom Black Feeder look.

High module carbon • Thin blanks • Fast response • Supplied with 3 Innovative "Fishery" tips • Unique ergonomic shaped handle for comfort • High quality components • Anatomic rear grip

## THUNDER FEEDER

One, two, three – strike! Specifically designed for targeting the fierce sturgeon, Okuma's Thunder Sturgeon rod delivers extreme casting capabilities for bolting large baits into the distance. The rod's reinforced blank boasts incredible reserves of power and responsiveness to wrestle down the wildly jumping sturgeon – and to withstand even the most thunderous strikes.

- 4T+30T Carbon Blanks for Responsiveness, Power and Durability
- BOPP Spiral Reinforcement Blanks with the Alternate Matt and Glossy Showing
- Tangle-Free Stainless Steel Frame Guides Help Reduce Wind Knots
- Zirconium Inserts Offer Compatibility for both Braid and Mono
- Okuma Heavy Duty DPS-H Reel Seat
- Durable Shrink Tube Grips and EVA Foregrip with Good Balance Design
- 4-Tele Blank Design Offers Easy Transportation
- High Quality Cloth Bag Package

**MATCH****COMPETITION AVENGER**

The Competition Avenger tele rods are built with a specific goal: an unmatched float fishing experience. The light yet powerful construction of the rod's high-modulus blank offers the sensitivity and power required for targeting (and lifting) large seabream from rocks and high ground. The high-quality components of the Competition Avenger allow for precise and exciting float fishing even in adverse conditions.

- Light and responsive 30T low resin carbon blanks.
- X-wrap carbon reinforcements improved strength and durability.
- Fuji K-Concept guide frames help reduce wind notes.
- Fuji Alconite guide inserts offer premium performance.
- Fuji NS Plate Type reel seat.
- High quality cloth bag.
